

Now entering our eleventh year, Forest of **Imagination is taking over The Holburne** Museum and Gardens, from 26 - 30 June 2024. This year's theme will highlight a vibrant 'Biodiversity Ring' through stories and creative interventions. Taking advantage of the diverse landscapes and habitats, Forest of Imagination's physical presence will reinforce the green setting of the Museum Gardens leading into Sydney Gardens and the wider city landscapes.

# **26-30 JUNE 2024 OPENING TIMES**

OPENING NIGHT:

WEDNESDAY 26 JUNE, 6-8PM

10AM-5PM, FRI 10AM-5PM AND 6-8PM SATURDAY 10AM-5PM, SUNDAY 11AM-5PM

Created from multiple interventions, large and small. the Biodiversity Ring presents inspiring little steps to make it easier to address the climate and ecological emergencies.

of soundscapes, lights, and small interventions made by artists, school children, community groups, and visitors to the site. In addition, the circle will link a sequence of larger interventions that are more interactive such as the Climate Spa and the An-ki Theatre, Participants will contribute, share, visit, eat, and make ideas come to life.

### **CLIMATE SPA SPACE FOR PLAYFUL AWAKENING**

What if SPA stood for "Space for Playful Awakening" and appeared in a Forest of Imagination near you? Imagine a magical tree that flies like a hot air balloon, planted by the first Sparkitect, and run by children who see the invisible. These children offer wondrous treatments connecting us to nature's beauty As Sparkitects, they could devise playful awakenings for Bath. Join us in a creative, immersive adventure at Holburne Museum garden and bring your imaginations.

## FORESTRY ENGLAND & CULTURESHOCK

THE READING NEST

Inside The Reading Nest you can explore stories and artwork from Forestry England's first ever book We the Forest. The book is brimming with beautiful artwork that will ignite kids imaginations and unveil the wonders of trees through exciting stories and scientific

## FRANÇOIS MATARASSO DOMINOES OF LIFE

FOI 2024 ARTISTS AND THEIR WORK...

Come and create a pictorial domino for our ever-growing ring of life. This game can be played by connecting colours (red with read) or ideas. Put a bee beside a flower but take care which animals you nut together There's everything you need, and help too, for everyone to contribute, from the youngest visitor to the oldest. What will you add—a fox, a rose, a river or a volcano? The choice is yours: they all have a place in the ring of life.

## GEMMA DUNNELL & JULIET DUCKWORTH

**WEAVE A FOREST FLOOR** 

Come and learn about the UK's temperate rainforests by making a woven Forest Floor using recycled materials. Explore this precious native biome by adding your own creation to this collaborative accumulative artwork.

### **GRANT ASSOCIATES** DREAMER THE RABBIT

7.5 metre inflatable rabbit named Dreamer, an iconic member of the Forest of Imagination family, designed by Andrew Grant of Grant

# HANNAH MCDOWALL & DAVE MARTIN

making, technology, and engineering." -NAEYC. Drop in to join our playful conversations about org. With Andrew Amondson, Matthew Leece birthdays. Imagine all the different birthdays happening in a forest today! What if you were a 500 year old oak tree? How would you feel about your 501st hirthday? Would you like your wrinkly skin! And what if you were a slug? How discover an incredible world of super-resilient would you celebrate your only birthday? This is a chance to have a conversation with a family member or stranger about forest birthdays and your birthday! If you like birthday cake this is the place for you!

### **SOIL DREAMING**

Soil, dirt, earth, mud. In the airless dark beneath our feet all manner of animals, plants, fungi and bacteria are making the stuff from which the forest recreates itself; glorious nourishing soil! In this session we will experience the many smells, sounds and textures of soil and explore together what it is and how it sustains so much life. We will imagine that people also grow from soil. I wonder, what kind of soil helps you to be creative like a happy forest?

### **KIDICAL MASS X** FOREST OF IMAGINATION THE MOVING FOREST

A collaboration with Kidical Mass and Forest of Imagination. Cycling to Sydney Gardens from Bath City Football Club. Join the moving forest as we cycle through a forest of our collective imaginations. Each hike will be its own miniforest, coming together to form one large moving forest, so we can reimagine Bath as a safe, biodiverse cycling sanctuary.

## KILTER THEATRE **MOTHER NATURE'S SUPPER CLUI**

Imagine if all the living creatures of the forest could gather together around a table to discuss their plight. What would they suggest for the human problem? It's time to find out, Join Kilter's Olly & Caroline as they explore new characters, soundscapes & playful ideas for an experimental interactive experience to be developed fully next year.

## MARTYN WARE. TIM WHEATER & CHERUB SANSON

Composed by Martyn Ware, Tim Wheater and Cherub Sanson and kindly supported by Monitor Audio Group, Immerse vourself in this hypnotic three-dimensional soundscape featuring an electronic compositional respons to the soundworld of naturally resonant acoustic instruments. The contrast between the natural and electronic worlds embodies paradoxically both a warning and a hope for a more considered technologically-enabled future and the inevitability of a new reality.

### PAMELA FALKENBERG. JACK COCHRAN & LUCY ENGLISH CANCER ALLEY

Cancer Alley is a poetry film about

environmental destruction in Louisiana's 'Cancer Alley', highlighting the need for corporate responsibility and raising public awareness of extreme pollution. The film showcases the experiences of residents in polluted areas and calls for action to protec nvironment. It addresses the urgency of changing our ways amidst increasing plastiproduction. The poetry, written by Lucy English, draws inspiration from local residents and indigenous leader Manari Ushigua Santi.

### OLIVER WALLACE, PATCHLARKS **MYSTERIES OF THE MINI-FORESTS**

Disappear into a patch of moss in this interactive storytelling show. Join Bryony, th tiny scientist to explore this tiny habitat and plants, giant raindrop swimming pools and fearsome beasts!

# PETER VILK & ROXANA VILK

Create a live forest soundscape with unusua percussion instruments, found objects, and our imaginations. What does the forest reall sound like? What stories can we tell with these sounds? Bring a "forest related" object or ething you like the sound of for recording and playing with sonic textures. Using music technology and nature's objects, we will explore live sampling and looping to create unique soundscapes, available as an mp3 to share.

Sticky Ends is an energetic, funny and often surreal improv' show for family or school audiences that riffs off the form of cautionary tales. Its intention is to make an absolute mockery of the tradition of heavy moralising that features so much in children's theatre.

### YOUNG GREEN CREATORS

Young Green Creators are a newly established small group looking to provide climate focused events for young people aged 16-25. Their aim is to help educate young people on democracy, climate change and activism.

## **CREATIVES NOW**

Creatives Now is an arts collective for 12-18 vear-olds in Bolton. The collective is youth-led and dedicated to co-design, and a platform for young people to express themselves through
